

NEEBO®
ILLUMINATE POSSIBILITIES

FY26

A COMPANY OF

RESTLESS INNOVATORS

NEBO is one of the world's largest suppliers of technologically advanced consumer-friendly flashlights and LED products in the world. In the last year alone, NEBO shipped over 10 million innovative LED products to outdoor fanatics, camping enthusiasts, car owners and homeowners.

Evolving and never compromising, we bring cutting edge design and extreme brightness to the marketplace. We create and see our products through every phase of development, from the concept to the end consumer, ensuring we offer the most innovative and highest quality products available anywhere today.

Constant investment in innovative design and technology ensures that we continue to light the way!

THE TECH

In a world of rapidly changing technology, keeping up with the latest trends is hard, but doing so only takes you as far as someone else has already gone. At NEBO, we like to explore uncharted territories. That's the trailblazer mind-set. What makes NEBO better? What makes NEBO different? The answers can be found in our technology, where instead of just asking why, we ask "why not?"

C·O·B (CHIPS ON BOARD)

Uses smaller, easier-clustered LED chips that mount directly to the circuit board to work together as one lighting module, outperforming traditional lighting by up to 50 times per centimeter of light surface.

ARCUS™

A new, proprietary C·O·B LED technology that allows the shaping of light into full 3D patterns, giving optimal, bright, uniform light exactly where it's needed.

OPTIMISED C·O·B

Provides industry-leading brightness and zoom capability in spot mode, and a perfectly dispersed flood light beam with our integrated OC Technology.

SMART POWER CONTROL™ (SPC)

Creates a seamless transition through light modes to extend battery life and allow your eyes to adjust more easily.

SMART TEMPERATURE CONTROL™ (STC)

Utilises advanced circuitry to actively regulate light output and monitor temperature to preserve battery life and ensure safe, reliable operation.

FLEX-POWER™ TECHNOLOGY

Provides power and operation with the use of either rechargeable batteries or disposable alkaline batteries.

L·E·P (LASER EXCITED PHOSPHOR)

Generates a stable, more visible light beam that can project over incredible distances.

OPTIMISED POWER CURVE™

Efficiently utilises battery power to provide a steadier, more consistent light beam over extended periods of use.

OC™ (OPTIMISED CLARITY) TECHNOLOGY

Creates a perfectly dispersed beam of intense, pristine light that is as bright on the edge as it is in the center when used in flood mode.

EASY TOUCH

Simple and intuitive push button operation quickly cycles through multiple light modes.

MAGNETIC MODE SELECT DIAL

Easy-to-use twist dial allows you to quickly and easily select the light mode of your choice.

POWER MEMORY RECALL

Quickly accesses your preferred light setting, so you don't have to cycle through the light modes.

MASTER SERIES

NEBO

ILLUMINATE POSSIBILITIES

NEBO[®]

SL25

With a light beam a quarter mile long, this waterproof and impact-resistant spotlight also features a C•O•B floodlight, magnetic mode select dial, magnetic base, reversible clip and tripod mount for added versatility to your lighting solutions.

LIGHTING MODES

- Spot (500 lumens) - 6.5 hours / 400 meters
- White C•O•B (600 lumens) - 6 hours / 38 meters
- Red C•O•B (30 lumens) - 10.5 hours / 12 meters

DESIGN FEATURES

- USB-C rechargeable
- Magnetic Mode Select Dial
- Smart Power Control™ (SPC)
- Optimised Power Curve™
- Tripod mountable (1/4-20)
- Reversible/removable steel clip
- Waterproof (IPX7)
- Impact-resistant (2 meters)
- Anodised aircraft-grade aluminium
- Ergonomic rubberised grip
- Powerful magnetic base
- LED power/charging indicator

OPERATION

- Front-positioned, ON/OFF trigger button; rear-positioned Magnetic Mode Select Dial

ACCESSORIES

- Lanyard
- USB-C charging cable

BATTERIES

- Powered by (2) 21700 rechargeable batteries
- Recharge time: 3 hours (2.0A) - 12 hours (0.5A)

ILLUMINATE POSSIBILITIES

NEBO[®]

TRANSCEND

1500

The **TRANSCEND 1500** is a powerful, USB-C rechargeable headlamp that features a 1,500 lumen Turbo Mode. The Mode Selector Dial and Smart Power Control enable the TRANSCEND to seamlessly transition through the different light modes.

LIGHTING MODES

- Turbo (1,500 lumens) - 30 second intervals* / 129 meters
- High (750 lumens) - 4 hours / 91 meters
- Medium (300 lumens): 5.5 hours / 58 meters
- Low (30 lumens) - 28 hours / 18 meters
- Strobe (750 lumens) - 4 hours / 91 meters

DESIGN FEATURES

- USB-C Rechargeable
- Smart Power Control
- Detachable head strap mount with adjustable tilt
- Powerful magnetic base
- Direct-to-Low feature
- Battery charging indicator
- Anodised aircraft-grade aluminium; water and impact-resistant
- Waterproof (IPX7) and impact-resistant

NEBO[®] LIL LARRY[®] 500 FLEX

The **Lil Larry 500 FLEX** is a compact, 500-lumen work light that utilises Flex-Power Technology, which allows the light to be powered by an included 10850 rechargeable battery or with 2 AAA batteries. The Larry 500 FLEX is equipped with a steel pocket clip, and a powerful magnetic base for convenient hands-free lighting

LIGHT MODES (10850 RECHARGEABLE BATTERY)

- White C•O•B High (500 lumens): 1.5 hours / 31 meters
- White C•O•B Low (250 lumens): 3 hours / 22 meters
- White C•O•B Strobe (300 lumens): 3 hours / 22 meters
- Red C•O•B Work Light (8 lumens): 2.5 hours / 4 meters
- Red C•O•B Hazard (4 lumens): 5 hours / 3 meters

LIGHT MODES (2 AAA BATTERIES)

- White C•O•B High (150 lumens): 2 hours / 18 meters
- White C•O•B Low (60 lumens): 3 hours / 11 meters
- White C•O•B Strobe (100 lumens): 3 hours / 12 meters
- Red C•O•B Work Light (8 lumens): 4 hours / 4 meters
- Red C•O•B Strobe (7 lumens): 2.5 hours / 3 meters

DESIGN FEATURES

- Flex-Power™ technology
- Smart Power Control™ (SPC)
- Dimming + Power Memory Recall
- Direct-to-Red
- Anodised aircraft-grade aluminium
- Waterproof (IPX7) and impact-resistant
- Ergonomic rubberized grip
- Steel pocket clip
- Powerful magnetic base

TECHNOLOGY

COB contains more LED chips to provide a strong, uniform beam for a greater overall lighting experience.

Flex-Power technology allows this hybrid light to operate on the included rechargeable battery or (3x) AAA batteries (not included).

NEBO[®]

TORCHY™ UV

& BLACK LIGHT

Engineered with Dual UV-A (Ultraviolet A) Technology for better detection, inspection, and authentication in both residential and commercial applications. The broad-spectrum wavelengths provide a blended illumination and fluorescence that is ideal for close-range tasks such as detection of pet urine, inspection of auto leaks with UV dyes, pest detection such as scorpions, cleaning inspections, and authentication of currency. Compact and pocketable, this light is constructed with a durable aluminum housing that is impact-resistant and water-resistant. Battery powered with three AAA batteries (included).

LIGHTING MODES

- High 2.5 hours
- Low 8 hours

DESIGN FEATURES

- Dual UV-A Technology (2x 395nm + 1x365nm LEDs)
- Alkaline (3x AAA Batteries)
- 2 Light Modes (High – Low)
- Push Button Operation
- Aluminium Construction
- Water-resistant IPX4 Rating

TECHNOLOGY

UV DUAL UV-A

Torchy™ UV combines a 365nm UV-A LED for fluorescence and twin 395nm UV-A LEDs for a broad UV spectrum, maximising brightness and fluorescence.

NEBO[®] LUXTREME[®] NANO

COMPACT SIZE POWERFUL LIGHT

The **LUXTREME NANO** sets a new standard for pocket lights, offering an impressive 300-meter light beam in an ultra-compact design. This pocket-sized light is USB-C rechargeable and utilises Smart Power Control to seamlessly transition the 5 light modes.

LIGHTING MODES

- Turbo (420 lumens): 30 sec* / 300 meters
- * After 30 seconds, light returns to the previously used mode to prevent overheating and protect the battery. Turbo mode can be reactivated at any time.
- High (80 lumens): 2 hours / 133 meters
- Medium (40 lumens): 3.5 hours / 97 meters
- Low (12 lumens): 8 hours / 52 meters
- Strobe: 5 hours

DESIGN FEATURES

- USB-C rechargeable
- Smart Power Control™ (SPC)
- Direct-to-Low
- Power indicator
- Battery charging indicator
- Anodized aircraft-grade aluminium
- Water and impact-resistant (IPX6)
- Keyring/lanyard hole

TECHNOLOGY

Smart Power Control™ creates a seamless transition through light modes to extend battery life.

OMNI 3K

The **OMNI 3K** is the ultimate, omni-directional work light that boasts a powerful 3,000 lumen, Dual C•O•B output with a red hazard feature. The OMNI 3K features an adjustable, magnetic handle to provide convenient carry, magnetic attachment or a sturdy base for hands-free light. Each C•O•B panel rotates to give light everywhere that you need it, and the dimmer controls give you the right amount of light. Completely rechargeable, the OMNI 3K also features a power bank to charge your USB powered devices.

LI-ION BATTERY LIGHTING MODES

- Dual C•O•B High (3000 lumens) - 1 hours / 70 meters
- Dual C•O•B Low (300 lumens) - 4 hours / 22 meters
- Single C•O•B High (1500 lumens) - 2 hours / 50 meters
- Single C•O•B Low (150 lumens) - 8* hours / 18 meters
- Red C•O•B (7 lumens*) - 15* hours / 8 meters
- Red C•O•B Strobe (7 lumens*) - 20 hours / 8 meters

DESIGN FEATURES

- USB-C rechargeable
- 4,000mAh power bank
- Rotating magnetic handle
- Rotating C•O•B panels
- Water (IPX4) and impact-resistant
- Non-slip rubber coating
- Battery charging indicator

BLACKOUT BACKUP™ EMERGENCY LED BULB

With the **NEBO BLACKOUT BACKUP™ EMERGENCY BULB**, you won't be caught in the dark. It functions just like a standard LED bulb and fits most lighting fixtures, but its rechargeable internal battery stays charged and ready to provide your home with up to 12 hours of emergency lighting. The included power cap allows it to be used as a portable handheld light and the integrated hanging hook offers the ability to use it anywhere, even if you don't have a lighting fixture available. With the **BLACKOUT BACKUP™** Emergency Bulb, you'll have peace of mind that the next outage won't take your house by surprise!

LIGHTING MODES

- Fixture (850 lumens): 24 meters
- Backup High (500 lumens): 2 hours / 18 meters
- Backup Medium (185 lumens): 6 hours / 9 meters
- Backup Low (80 lumens): 12 hours / 6 meters

DESIGN FEATURES

- Remains on without power
- Replaces standard bulbs with E27 base
- Soft, white light (3,000K)
- 60W equivalent
