

INFINIO MOTIONSENSOR HEADLIGHT

Make your daily life more convenient with our newest innovation! With a unique motion sensor on the headlamp, simply wave your hand to switch the headlamp on and off without touching it, which is more convenient and avoids dirtying the headlamp with dirty hands. Perfect for working on the car or DIY in dark areas, the headlamp leaves both hands free to concentrate on something else.

NEW Product INNOVATION 2024

Multiple light modes

The 3 coloured light strips offer you the possibility to create up to 8 effects, switching between shades and effects at any time at the touch of a button

[Hands-free Design]

The built-in sensor chip can be turned on and off at any time by recognising your instructions, leaving your hands free for lighting, and it comes with comfortable and adjustable headband, the headlamp leaves your hands free for work, adventure or fun.

No Fear of Bad Weather

The headlamp is equipped with a sturdy and waterproof housing, so it can be used in rainy or wet conditions (e.g. in a cave or on a rainy day).

Perfect for night activities

Whether you are camping, hiking, fishing or doing DIY work, the headlamp provides the perfect amount of light for all your nighttime activities.
